

Very close is now possible.

Having fresh, clean breath means always being ready to be close to those you love.

Oxyfresh Mouthrinses (with Oxygene® — stabilized chlorine dioxide) eliminate mouth odors at their source. You'll be amazed how fresh your mouth can feel! Oxyfresh Mouthrinses are all clear, **non-staining, non-burning** and **alcohol-free**, protecting the investment you've made in your smile. There are five to choose from:

The One-Minute Solution

Power Rinse fights bad breath for up to six hours with Zinc, Oxygene®, Aloe and lemon-mint flavor. #190 (16 oz.)*

Fresh Mint Mouthrinse with Oxygene®, neutralizes sulfur compounds in your mouth in just one minute, leaving your breath fresh and odor-free. #170 (16 oz.)*

Patented Zinc Mouthrinse combines a fresh mint flavor with our patented Oxygene® Zinc formula, to provide maximum breath freshening. #195 (16 oz.)*

Fluoride Mouthrinse brings the power of Oxygene® and cavity-fighting fluoride together with a fresh mint taste. #160 (16 oz.)*

Unflavored Mouthrinse is identical to the Fresh Mint Mouthrinse, without the mint flavor. It effectively eliminates all of the same odors as other Oxyfresh Mouthrinses. #107 (16 oz.)

*Also available in one gallon refills. Gallon pump (#929) sold separately.

MOUTHRINSE

"You just can't believe how clean your mouth will feel!"

Active Ingredient: Sodium Fluoride .05%.

Other Ingredients: Water (Aqua), Xylitol, Sodium Chlorite (Oxygene® — Stabilized Chlorine Dioxide), Sodium Benzoate, Potassium Phosphate, Sodium Hydroxide, Peppermint (Mentha Piperita) Oil.

Patented Zinc Mouthrinse with Fresh Mint

Water (Aqua), Xylitol, Sodium Chlorite (Oxygene® — Stabilized Chlorine Dioxide), Sodium Citrate, Zinc Acetate, Peppermint (Mentha Piperita) Oil.

US Patent No. 6,325,997

Unflavored Mouthrinse

Water (Aqua), Sodium Chlorite (Oxygene® — Stabilized Chlorine Dioxide), Sodium Benzoate, Potassium Phosphate, Sodium Hydroxide.

Power Rinse with Lemon Mint Flavor

Water (Aqua), Xylitol, PEG-40 Hydrogenated Castor Oil, Sodium Chlorite (Oxygene® — Stabilized Chlorine Dioxide), Zinc Acetate, Natural Flavor, Aloe Barbados Leaf Juice, Sucralose, Sodium Citrate, Citric Acid, Sodium Hydroxide.

Ingredient Glossary

Active Ingredients

Sodium Fluoride – prevents tooth decay (anti-caries)

Botanical Ingredients

Peppermint Oil (Mentha Piperita) – antiseptic properties, aromatic effects

Other Ingredients

Potassium Phosphate – pH adjuster

Sodium Benzoate – FDA-approved preservative, extends shelf life

Sodium Chlorite (Oxygene® – stabilized chlorine dioxide) – oxidizes volatile sulfur compounds, eliminates oral odors, may reduce plaque and calculus, helps protect against germs.

Sodium Citrate – natural alkalizing compound

Sodium Hydroxide – pH adjuster

Xylitol – Sugar-free sweetener/flavoring agent, reduces risk of tooth decay (anti-caries)

Zinc Acetate – counteracts toxicity of volatile sulfur compounds, inhibits oral odors
