

Treat your pet to a happy, healthy life

Oxyfresh's new Pet Jerky provides key nutritional support for every pet.

20 out of 20 pets went nuts for Oxyfresh Pet Jerky!

Is your pet having difficulty getting around as it grows older? Is your new puppy or kitten getting the nutrients their young bodies need?

Oxyfresh Pet Jerky helps maximize joint function and mobility, increases your pet's range of motion and stimulates healthy cartilage growth. Plus, Pet Jerky is loaded with USDA beef so it tastes great, too!

Veterinarians say up to 43 percent of your pet's energy intake should come from high-quality proteins. Pet Jerky is loaded with 22 percent protein per serving! That compares with just 15 percent protein in Purina's Beggin' Strips®.

The superior nutritional support your pet will get from Oxyfresh Pet Jerky will complement all of Oxyfresh's Pet Nutritionals.

A Great Combination

Pet Jerky combined with Oxyfresh Pet Antioxidants offer ultimate nutritional support. Pet Antioxidants protect from the effects of free-radical damage and the tasty wafers provide support to the immune system while helping protect against tissue injury, arthritis and joint inflammation.

Glucosamine is the primary component of nearly all multi-ingredient nutraceutical formulas. It is essential for the formation of joint cartilage and synovial fluid.

MSM works as an anti-inflammatory. It slows the progression of arthritis and relieves pain. Pets showing chronic joint pain should be receiving MSM regularly.

Sea Cucumber works to repair cartilage and diminish inflammation.

Pet Jerky is available in an 11-ounce canister (stock #445)

PET JERKY

"Oxyfresh Pet Jerky is a top-quality nutritional supplement pets love. The levels of chondroitin from sea cucumber, MSM, and glucosamine are simply the best I've encountered. This product is so palatable that even the most nervous dog on the exam table will quickly take it when offered."

R 4/05

Nutraceutical Ingredients

Sea Cucumber Extract (25%)
mucopolysaccharides (250 mg) — Excellent source of chondroitin necessary for the repair of cartilage and diminishment of inflammation.

MSM methylsulfonylmethane (50 mg) — A sulfur compound critical for connective tissue health. Helps to reduce inflammation and increase flexibility.

Glucosamine HCL (50 mg) — Helps to repair and maintain healthy cartilage. Inhibits inflammation and stimulates growth of synovial fluid for joint lubrication.

Other Ingredients

Beef (USDA), wheat flour, sea cucumber (25% mucopolysaccharides), dextrose, corn syrup, salt, hydrolyzed wheat protein, glucosamine HCL (99%), MSM (methylsulfonylmethane, 99.9%), natural smoke flavor, potassium sorbate (a preservative), Vitamin E, omega-3 (fish oil), omega-6 (evening primrose oil) and other natural flavorings. All nutraceuticals are premium human grade.

Guaranteed Analysis

Crude Protein:	Min.	22%
Crude Fat:	Min.	10%
Crude Fiber:	Max.	3%
