

Protection for your *hands-on* life

Your skin works hard for you everyday. It's the way you touch your world — and sometimes your skin needs extra care and a little protection.

Hands down, Oxyfresh's exclusive Skin Barrier® is the ultimate skin protector. It creates a soft and smooth — yet incredibly powerful — invisible layer of protection for your skin. With eight barrier ingredients that protect and moisturize, Skin Barrier® provides healing for dry, cracked and sensitive skin.

Health professionals love this product because it wards off allergic reactions associated with prolonged use of latex gloves. Auto mechanics, gardeners, cooks, beauty salon operators and daycare workers insist on the protection of Skin Barrier®. With so many uses, Skin Barrier® is one of the easiest Oxyfresh products to recommend and market.

Endless Uses

- Locks in moisture, protecting skin that is washed frequently.
- Protects hands from chemicals and organic matter.
- Shields hands and arms from onion, garlic, fish and other foods with lingering smells.
- Extends the life of sunscreen.
- Helps treat bacterial wounds and prevent diaper rash.
- Protects against poison ivy.
- Locks in moisture during harsh/dry weather.

Antibacterial Skin Barrier® is available in an economy 32-ounce size (#855). Regular Skin Barrier® comes in 4-ounce tubes (#280).

SKIN BARRIER®

"Our second baby was born in December. Team that with both pre and post diaper-change hand-washing and even the best conditioned skin quickly becomes dry and cracked. Skin Barrier® gave instant relief and now we keep a tube by every sink."
